PROSPETTIVA/POV

Presenza accoglie il visitatore in un vuoto abitato da cinque totem audio-reattivi: i sensori a ultrasuoni traducono la distanza del corpo in layer musicali ed effetti visivi, finché il silenzio, "sciolto" dalla co-presenza dei partecipanti, si trasforma in un brano collettivo.

S'È RIFLESSI

Un arco di luce, un punto e sguardo dove l'arte
si presenta al tempo stesso domanda e risposta.
L'opera è un'esperienza immersiva e interattiva
che esplora
l'identità, l'emozione e l'identità
con il corpo, l'emozione e l'identità
Qui l'installazione è una
forma di autocoscienza
che si respira con la propria
osservazione, ogni dettaglio è
visivo e sonoro, restituisce un ritratto
in mutazione continua, proprio come
il tuo essere.
